

## ASRockind Technical Reference - Q&A

<b>Question</b>	Does my model support Windows 11?
<b>Release date</b>	2022/11/14
<b>Product</b>	All model
<b>FAQ type</b>	<input type="checkbox"/> Specification <input checked="" type="checkbox"/> OS & Driver <input type="checkbox"/> Application <input type="checkbox"/> BIOS <input type="checkbox"/> Others

### Answer:

For Intel IOTG platform, Intel supports Windows IoT Enterprise LTSC OS version officially.

However, the current LTSC version that Microsoft released is Windows 10 based.

If customer would like to use Windows 11 non-LTSC version on ASRock Industrial product with Intel IOTG SKUs, we still provide beta drivers on ASRock Industrial website.

We recommend customer to verify it with total system application before adopting it.

Please refer to the platform list below and download the beta driver from ASRock Industrial website.

#### Intel® Platform

[Socket type]

Generation	Supported Chipset
Intel® 300 series	Q370, H310
Intel® 400 series	Q470E, H420E, H410, W480E
Intel® 600 series	Q670, H610, W680

[SoC type]

Generation
Intel® 12th Gen (Alder Lake-P) Core™ Processors
Intel® 11th Gen (Tiger Lake-UP3) Core™ Processors
Intel® 8th Gen (Whiskey Lake-U) Core™ Processors
Intel® Elkhart Lake SoC Processors

#### AMD Platform

Generation
Ryzen™ Embedded V2000-series
Ryzen™ 4000 series
Ryzen™ 5000 series

Note:

1. Intel only provides technical support for Windows IoT Enterprise LTSC OS version on Intel IOTG platform.
2. ASRock Industrial recommend choosing supported OS for better driver support on Intel IOTG platform.
