

## ASRockind Technical Reference - Q&A

Question	Does my system support KVM function(Intel® vPro)?
Release date	2023/9/6
Product	Intel ADL-P Platform, Intel RPL-P Platform
FAQ type	<input checked="" type="checkbox"/> Specification <input type="checkbox"/> OS & Driver <input type="checkbox"/> Application <input type="checkbox"/> BIOS <input checked="" type="checkbox"/> Others

### **Answer:**

The KVM function requires the processor with Intel vPro® Enterprise eligibility.

Intel 12<sup>th</sup> Gen. processor or later introduced Intel vPro® Enterprise and Intel vPro® Essentials branding.

**Intel vPro® Enterprise:** It supports security, manageability, and stability features, including AMT, KVM function for enterprise and large organizations.

**Intel vPro® Essentials:** It supports Standard Manageability for smaller scale organizations.

For more details, please refer to Intel website below.
